Dear Friends:

Right-wing "terrorism" is increasing dramatically, not far away in other troubled nations, but here at home in the U. S.! We are sending you the enclosed leaflet to make certain you are aware of the recent murders of several peace activists.

Well organized, reactionary "death squads" are threatening and assassinating refugees, third-world residents and now native-born citizens in America.

The enclosed leaflet, put out by the Committee for Justice for Thi Luu and Van Luy (CFJ) gives some initial information. Other support groups are working on similar cases. (See addresses below.)

We hope you will give both your concern and assistance. If you are interested in further information, please contact us in D. C. or the appropriate committee below.

For peace and justice,

Roger Rumpf - Jacqui Chagnon
